PERSONAL PROJECTS

Inufit (06/2023)

- A Project relating to my love for fitness and Shibas, Inufit, is a multi-page ReactJS project using MaterialUI for styling.
- Calls an ExerciseDB API that has over 1300+ exercises.
- Use of Frontend Development best-practices including loading-states, beautiful design, and exercise details to deliver a project that anyone can use to find exercises that they may want to incorporate into their own fitness regimen
- ReactJS, CSS, HTML, JavaScript, MaterialUI

Mewtube (06/2023)

- Mewtube is a Youtube clone I created with a cat theme. Who doesn't love cat videos?
- Calls a Youtube API and has a search feature that can be used to find any video you would ever need. Especially cat videos
- Multiple Functional Pages, including many different categories, a channel page, a video page with recommended videos, all with use of React best practice and reusable components
- ReactJS, CSS, HTML, JavaScript, MaterialUI

Library (04/2023 - 05/2023)

- Interactive E-Commerce Book Store. A clean and precise website using React best-practices delivering a fast-beautiful multi-page website that cleanly presents products
- Features including skeleton loading state, sort by rating and price, recommended books, and functional cart.
- ReactJS, HTML, CSS, JavaScript

Old E-Portfolio (03/2023)

- Beautiful project designed to display my personal projects and feature JavaScript, HTML, CSS best-practices with an immersive user-experience
- HTML, CSS, JavaScript
